Subject Index

	Number-Page
Analyzers	
Gas Chromatography	2-93
Microprocessor-Based	1-61
On-Line Analysis of Oleum	4-63
Ozone Precursor Monitor	2-15
Steam Purity for Turbines and Power Plants	3-61
Bioengineering	
Kidney Tubule Research	1-31
Manatee Tracking	1-79
Noninvasive Blood Flowmeter	2-53
Veterinary Diagnostics	2-101
Calibration	
Pressure Probe	2-29
Controller	
Imbalanced Systems	1-1
Management and Control for Paper Mills	4-1
Methanol Plants	2-1
Pipeline	1-45
Real-Time Active Vibrations	3-55
Switching Structures	3-21
Data Processing and Acquisition	
Analyzers and Field Devices	1-61
IEEE - 488 Concept	4-9
Kidney Tubule Research	1-31
Pipeline Supervision	1-45
Simulation of Electric Power Systems	4-15
Management	
Electricity Pricing	3-69
Management and Control for Paper Mills	4-1
Measurement	
Carbon Phenolic Roll Torque	4-23
Flow Direction and Skin Friction	1-69
Flow through Flumes	1-55
Fuel Gas Energy	2-93
Liquid Alkali Metal Environments	4-49
Liquid Flow Rate	2-41
Miniature Drag - Force Anemometer	1-37
Noninvasive Blood Flowmeter	2-53
On-Line Analysis of Oleum	4-63
Oscillating Wing Flowmeter	2-75
Phase Noise	4-37
Pressure Probe for Incompressible Flows	2-29
Vortex-Shedding Flowmeter for HT Gas Flow	1-23
Water and Wastewater Treatment	2-59
Modeling and Simulation	
Froth Flotation and Vacuum Filtration Units	3-45
Multivariable Paper Plant Simulations	4-57
Reliability from the Customer's Viewpoint	4-45
Simulation of Electric Power Systems	4-15
Reliability	
From the Customer's Viewpoint	4-45
Standards	
IEEE - 488 Concept	4-9
Temperature Measurement	
Miniaturized ΔT Gage	3-27
Test Measurement	
Artillery Projectiles	3-73
Qualification Testing Evaluation Program	3-37
Water and Wastewater	
Monitoring and Control	2-59

Title Index

Number 1 **Page**

Dynamic Matrix Control of Imbalanced Systems 1
Validation of the Space Shuttle's Orbiter Avionics 7
Application of a Vortex-Shedding Flowmeter to the Wide-Range Measurement of High-Temperature Gas Flow 23
A Control and Data Processing Instrument for Kidney Tubule Research 31
Miniature Drag-Force Anemometer 37
Fundamentals of Pipeline Instrumentation, Automation, and Supervisory Control 45
Field Rating Evaluation of a Large Supercritical Measurement Flume 55
Distribution of Intelligence to Microprocessor-Based Analyzers and Field Devices for Process Control 61
Two New Instruments for Flow Direction and Skin-Friction Measurements in Separated Flows 69
Tracking the Florida Manatee 79

Number 2

Instrumentation and Control of Methanol Plants 1
Ozone Precursor Monitor for Investigating Air Pollution 15
Development of a Dynamic Total Pressure Probe for Use in Incompressible Flows 29
Liquid Flow Metering Accuracy — Whither the Orifice Plate? 41
Ultrasound Doppler and Echo Combined as a Noninvasive Blood Flowmeter 53
Instrumental Methods of Monitoring and Control of Water and Wastewater Treatment Processes 59
The Oscillating Wing Flowmeter: A New Concept in Large Line Size Gas Flow Measurement 75
Energy Measurement of Fuel Gases by Process Gas Chromatography 93
Applications of Ultrasound to Veterinary Diagnostics in a Veterinary Teaching Hospital 101

Title Index (Cont'd)

Number 3

Design and Performance of an Undersea, Single-Fiber Multi-Repeater, Full Duplex, Electro-Optical Data Link 3

An Introduction to Switching Controller Structures 21

A Miniaturized Differential Temperature (ΔT) Gage for Detection of Boundary-Layer Transition Onset for Hypersonic Re-Entry Vehicles 27

The Qualification Testing Evaluation (QTE) Program: NCR-Sponsored Research on Safety-Related Equipment Qualification Methodologies 37

Dynamic Modeling and Simulation of Froth Flotation and Vacuum Filtration Units 45

A Real-Time Active Vibration Controller 55

Steam Purity Analysis Instrumentation for Turbines and Power Plants 61

A New Look at Electricity Pricing 69

Acquisition of Artillery Projectile Data During In-Bore Travel Using RF Telemetry 73

Number 4

Integrated Operation Management and Control System for Paper Mills 1

The Impact of the IEEE-488 Concept on Measurement Productivity 9

Simulation of Electric Power Systems by Parallel Computation 15

Carbon Phenolic Roll Torque Measurements Using a Two-Component Skin Fricture Balance 23

Phase Noise Measurement Systems 37

Reliability from the Customer's Viewpoint 45

Instrumentation for Liquid Alkali Metal Environments 49

Improvements to Multivariable Paper Plant Simulations Obtained through Observer-Based Estimators 57

On-Line Analysis of Oleum Using Electrodeless Conductivity 63
